

# Soluciones magnéticas industriales

## Powder & Bulk Handling

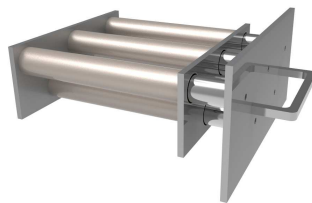

The industries that produce the processed bulk dry solids and powders depend on suppliers to produce a product that is reliable and packed with quality. Inevitably, each processor uses a range of equipment as dust and solids go through the various production processes, with the goal of producing a quality end product.

## Magnetic Separators Designed for the Powder & Bulk Handling

Magnetic bars

Magnetic grids

Magnetic drawer

Magnetic cone filters

Magnetic plate

Magnetic pulley

Magnetic Overband

Magnetic pipe
